ABOUT DONCASTER UNIVERSITY TECHNICAL COLLEGE.

Doncaster UTC is a completely different type of school for 13 to 18 year olds, which opens in a brand new building in Doncaster town centre in September 2020. We offer students a totally new and unique way to learn, giving them the edge that employers and the local economy need.

We're looking for like-minded businesses to support our vision to ensure that our students get the edge in every aspect of their school life; from the equipment they use to the facilities they work in and the support they receive.

Our students will be equipped with the academic, technical and practical skills they need to progress into key industries of digital technology and engineering. Working with our existing high profile Employer Partners – Volker Rail, Wabtec Rail Ltd, Skanska Cementation, Polypipe, Engie, Agemaspark, NHS, Pennine Stone Ltd, Work Creative, SYFN, Meetupcall and St Leger Homes – as well as The University of Sheffield, we have developed a curriculum that combines exciting and relevant qualifications and project-based learning to set our students apart and give them experience of the working environment.

We are now seeking other successful businesses to work with us. The benefits to your business will be huge: not only will you be able to access

our state-of-the-art facilities for your own business needs, but you will be associated with our revolutionary school, our high profile Founding Partners, Major Partners and Partners and most importantly, have the chance to help grow your own future employees.

Read on for more details on the various levels of sponsorship and partnership available. We hope that you are as excited about this opportunity as we are.

facilities available for hire

WHY GET INVOLVED?

We're looking for businesses that want to make a difference to young people's lives and play a part in developing employees of the future to help our region flourish.

Our innovative and exciting new building gives staff, students and employer partners a special environment in which to dream, learn, work and achieve.

As Doncaster's first University Technical College, our aim is to work with as many local employers as possible to give our students a rich and rewarding experience. All of our Employer Partners are deeply committed to supporting the UTC in its aim to equip the region's young

people with the skills, qualifications and experiences they need for local businesses and the local economy to grow. We want businesses that share our passion for the region to join us in ensuring that we work together to produce the next generation of engineers, digital technology specialists and entrepreneurs who will play a key role in the regeneration of this area.

The UTC in Doncaster is of vital importance to help the employers of today and the future to open the avenues of advanced manufacturing to ensure that Doncaster will be at the forefront of engineering in the next 20 > 50 years.

I believe that making the opportunity for them to use these type of technologies at an early stage in their development will bring the rewards they deserve resulting in the only limit will be their imagination.

PAUL STOCKHILL
Owner and Managing Director
of Agemaspark Ltd

Grow your own talent

Help grow your own tailor-made employees of the future

**Enhance your CSR**

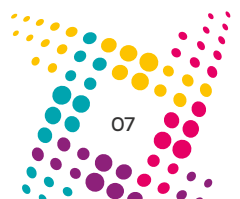

Play a role in developing the next generation of talent by offering work placements and mentoring

**Brand association**

Unique opportunity to be linked with Doncaster's first UTC and the region's top local businesses

**Networking opportunities**

Get priority invitations to social and business events to meet other like-minded professionals

EMPLOYER PARTNERS.

Our Employer Partners are the bedrock of our UTC. Working alongside our own highly skilled teachers, they ensure that students develop the qualifications, skills and experience they need for their future careers.

Representatives from our Employer Partners were involved in developing plans for the building, curriculum and facilities from the very start.

Between them, these Employer Partners employ more than 7,000 people locally.

They are some of the regions largest and most successful companies and offer industry expertise in the fields of Digital Technology and Engineering.

 **VolkerRail**

We're looking for the young people of today, to be the engineers of tomorrow. The UTC is going to give us the Engineers of the future.

JACK PENDLE
Volker Rail

SKANSKA

It'll bring a pipeline of potential employees for the future, that are work ready. The UTC will give more of a focus on Engineering and Practical Skills.

KATIE ALOVISI
Skanska

It's going to give young people an extra choice about their education. The UTC will enable the leavers to be work ready and equipped with the skills and experience they need.

JODI SAVAGE
Wabtec Rail

 **Polypipe**

Polypipe seek to recruit on an annual basis highly skilled, talented, young individuals and we strongly believe that working with the UTC and their technically biased curriculum and state of the art technology, underpinned by eager students willing to learn more technically competent skills in partnership with Polypipe projects, will fulfil both our long term recruitment goals and the needs of the UTC.

MELISSA FLETT
Polypipe

The UTC will provide exciting new opportunities for the borough's young people to access outstanding technical education here in Doncaster.

DAN FELL
Doncaster Chamber of Commerce

 **Polypipe**

The UTC is going to bridge a gap that Doncaster's not had before.

KIERAN LYNCH
Polypipe –
Graduate Management Trainee

VULCAN TO THE SKY TRUST
HONOURING THE PAST, INSPIRING THE FUTURE

The UTC will give the ability for young people to be more hands on.

IAN STRAW
Vulcan to the Sky Trust

Students entering the UTC in September will be a part of something special. Students will be looking at some interesting local projects. It is a privilege to be partnered with Doncaster UTC and long may it continue.

CHRIS SAUNDERS
Engie

EMPLOYER PARTNERS. CONTINUED

Doncaster and Bassetlaw Teaching Hospitals
NHS Foundation Trust

As an organisation we rely upon the expertise and dedication of our engineers. After all, even the best surgeons in the world cannot work in the dark.

DR KIRSTY EDMONDSON JONES
Doncaster and Bassetlaw Teaching Hospitals

South Yorkshire Filmmakers Network

I can certainly help the UTC students by offering advice and guidance for students when it comes to them shaping and making their films and certainly when it comes to production.

ROB SPERANZA
South Yorkshire Filmmaker's Network

The UTC in Doncaster is of vital importance to help the employers of today and the future to open the avenues of advanced manufacturing to ensure that Doncaster will be at the forefront of engineering in the next 20 > 50 years.

PAUL STOCKHILL
Agemaspark

Sheffield Hallam University

We aim to introduce and embed our industry contacts with Doncaster UTC students and to run our project 'Interactive design' as a masterclass at the university in Sheffield.

ANNE DONCASTER
Sheffield Hallam University

St Leger Homes will work to encourage and support the students within their curriculum and to link them with engagement/involvement opportunities from our organisation.

STACEY LYNN
St Leger Homes

Work Creative are proud to have been associated with Doncaster UTC from its inception in 2016 and to be continually involved in the journey. What awaits the first intake of students will be amazing and I can only see Doncaster UTC going from strength to strength.

WARREN HANDS
Work Creative

meetupcall

We aim to introduce and embed our industry contacts with Doncaster UTC students and to run our project 'Interactive design' as a masterclass at the university in Sheffield.
